

# VACUS GEO-SENTINAL TAGS

The Vacus' GPS tags are designed to provide a complete solution for worker location monitoring with unmatched positioning accuracy, real-time alerts, and advanced connectivity. It's perfect for industries aiming to enhance their safety protocols and improve response times in critical situations.

## ACCURATE POSITIONING & TRACKING

- **Indoor Tracking** : Precision of 30 - 50 cm, ideal for indoor environments and facilities.
- **Outdoor Tracking** : Accuracy ranging from 100 cm to 200 cm for reliable outdoor tracking

## REAL-TIME ALERTS

- **Geo-Fence Alerts** : Immediate alerts when the device crosses a predefined boundary.
- **Over Speed Alert**

## ADVANCED CONNECTIVITY

- **Wi-Fi Connectivity** : Seamlessly integrates with existing networks.
- **Cellular Connectivity** : Maintains connectivity in remote areas without WiFi.

## GEO-SENTINEL

## IDEAL APPLICATIONS

- Industrial Safety
- Remote Worker Monitoring
- Hazardous Area Monitoring
- Construction Site Management

Can be mounted to vehicles using industrial adhesives.

## FEATURES

## SAFETY & EMERGENCY FEATURES

- **SOS Alerts** : Emergency button for instant alerts in distress situations.
- **Speed** : Live tracking of vehicle speed with over speed alerts.
